

A NEW SPIN ON A CLASSIC GROOVE

The ultimate throwback machine for riding around the city, the Sixties 300i breathes new life into vintage scooters. This '60s-inspired scooter oozes a style that pays homage to the decade of bell bottoms, rock music, and bold aesthetics. The 300i is Keeway's largest displacement scooter and boasts a powerful, smooth, fuel injected 4-stroke engine that flies through the streets. Enjoy the stylish colors and elegant touches on our best-looking scooter yet.

01 Stylized Front End

Retro-themed touches elevate the 300i's entire aesthetic from top to bottom.

02 Stout Front Suspension

Enjoy the perfect amount of suspension provided by the KYB telescopic front fork.

03 Bosch ABS Disc Brakes

Nissin disc brake calipers equipped with Bosch ABS technology provide strong, reliable braking performance.

04 Powerhouse Engine

The most powerful scooter in the Sixties lineup, complete with liquid cooling, fuel injection, and a belt final drive.

05 City-Ready Tires

120/70-12 tires on both wheels feature wide white sidewalls for additional vintage flair.

06 Sleek Exhaust

The low-profile exhaust perfectly compliments the 300i's streamlined look, adorned with a color coordinated heat shield.

07 Fin-novative Taillights

The integrated fin-style vertical LED taillights are perfectly proportioned for that extra bit of flash.

08 Premium Double Seat

Separate seat cushions, bold colors, and customized stitch patterns deliver the best of both style and comfort.

09 Deco-inspired Dashboard

The fashion-forward instrument cluster blends a large linear speedometer with a discrete digital display to provide all your vitals at a glance.

10 Brilliant Headlight

The LED headlamp is positioned high up on the handlebars for increased visibility and a sweeping field of view.

The Sixties 300i hits all the right notes in an era-specific scooter that's redesigned with modern underpinnings. The stylish silhouette is unmistakably inspired by the 1960s while its powerful fuel-injected 300cc engine propels it into the 21st century. The dynamic Bosch ABS system acts through a pair of Nissin brake calipers to provide unrivaled stopping performance. From the elegant hood ornament to the fully-functional grille and unique taillights, the Sixties 300i provides an extraordinary ride.
